Great combo with Body Sculpt!

Mondays

8:45 - 9:15 AM

Wednesdays 5:45 PM

Followed by 30 & Out Sculpt

An instructor leads you through this cardio workout indicating when to adjust your speed and resistance level (making it easier or harder to pedal).

The class is set to music and allows you to go at your own pace and set your own resistance level.

Indoor Cycling is a low-impact exercise, which is much easier on your joints.

Regardless of how fit, flexible, or coordinated you are, you can get a great workout.

PLUS you could burn up to 600 calories per hour!
